QUALITY PROGRESS – 2020 in NEWS

‘Efforts, good practices must to maintain quality’

TIMES NEWS NETWORK

Nagpur: Sustained efforts coupled with good practices go a long way in producing quality products where engineers have a definite role to play, said ST Sampathkumaran, founding chief executive officer of Dassault Reliance Aerospace Ltd here, on Saturday.

He was speaking as the chief guest at the inauguration of a two-day all-India seminar titled ‘Quality Progress 2020’, organized jointly by the local chapter of Institution of Engineers (I) and Shreyas Quality Management System at the former’s facility on North Ambazari Road.

Quality is a practice one has to develop as it does not come incidentally and those engaged in various sectors should strive to attain it, he added.

“In this highly competitive world, no industry can sustain for long if quality is not maintained. It is mainly because people have become quality-conscious and expect more from service providers, manufacturing and allied industries,” he said.

Principal convener Ramesh Lakhe spoke about various competitions that are scheduled every year in which a new activity was introduced at the seminar.

Professor of NITIE, Mumbai, Balakrishna Narkhede and quality head of Nagpur Metro Keshav Tayde were felicitated at the programme.

In his address, Narkhede said, “I have observed after having worked at several places that education only equips a person with skills, but it is the common sense that helps solve business and social problems. If personnel handle different situations in life with patience, then no body can stop them from becoming successful. Systematic efforts and taking appropriate decisions at the right time are the keys to success.”

Tayde spoke about the efforts to improvise ‘MahaMetro’ project and backing of seniors to ensure strict quality controls.

RL Shrivastava, SB Jaju, Arun Kedar, BD Deshmukh, Ganesh Akhade and A Gadge were present.

In its 17th year, the seminar reviews the trends leading India to become a global power and endeavours to adopt quality practices for sustainable growth and achieve excellence by creating awareness among those involved in the process.

Events like quality circle competition, leadership development, safety, energy, human resources have been scheduled for industrial houses, and government and public sector undertakings. Case study competition and paper presentation for the students of engineering and MBA have also been planned.

ESSAY SECTION

Benefit of Quality Circle in personal life against industrial life

औद्योगिक जीवन के खिलाफ व्यक्तिगत जीवन में गुणवत्ता सर्कल के लाभ

द्वितीय विश्व युद्ध में अमेरिका ने जपान पर परमाणु बम डालकर वहाँ पर चारों तरफ तबाही मचा दी थी। उस समय जपान की आर्थिक स्थिति बहुत ही खराब हो गयी थी और पूरा देश सड़मे में था। ऐसी स्थिति में देश को फिरसे संपन्न और परिपूर्ण करने हेतु डॉ. इशिकावा ने सन 1962 में Quality Circle की अवधारणा रखकर उसे और लोगों को समझाकर अंमल में लाया गया था ताकि देश को फिर से अपने पैरों पर खड़ा कर सके। Quality Circle यह कोई एक ही शाखा से संबंधित नहीं है।

इसकी अवधारणा और अंमल सभी शाखाओं में जैसे घर संस्थान यातायात वर्कशॉप आदि क्षेत्रों में इसका अंमल करके जपान आज कितने आगे निकल गया है, यह हम देख सकते हैं।

इसके अच्छे परिणाम देखकर विश्व के सभी देशों ने Quality Circle की अवधारणा रखकर उस पर अंमल करके अपने अपने देश को मजबूत करने लगे और उसका उपयोग औद्योगिक क्षेत्रों के साथ साथ घर परिवार में भी करके उन्नति की और बढ़ने लगे।

Quality Circle क्या है ?

Quality Circle यह एक ही कार्यक्षेत्र पर कार्यरत 4 से 5 लोगों का एक समूह है जो समस्याओं के समाधान हेतु आनेवाली समस्याओं का अध्ययन करके उस समस्या का उचित समाधान ढुंढकर उसे अमल में लाते हैं। ताकि कार्यक्षेत्र पर गुणवत्ता में सुधार एवं सुरक्षात्मक कार्य किया जाता है।

क्योंकि गुणवत्ता चक्र का मतलब हि है :-

“11 डबल प्रोफिट झीरो इन्वेस्ट11”

व्यक्तिगत जीवन में गुणवत्ता सर्कल के लाभ :-

Quality Circle के निम्नलिखित लाभ हैं जो इस प्रकार हैं:-

- कार्य के साथ कम्पनी और समाज में एक अलग पहचान मिलती है।
- कार्यकर्ता के बीच एक अच्छी टिमवर्क हासिल होता है।
- भाईचारे की भावना जागृत करता है। एवं अपने व्यवहार में सुधार एवं एक दुसरे की जिम्मेदारी को करने का जजबा।
- उत्पादन से सम्बंधित अधिक जटिल समस्या को हल करने में आत्मविश्वास विकसित होता है।
- हमारे साथ के सभी कर्मचारी के व्यवहार में परिवर्तन।
- परिवार में आनेवाली जटिल से जटिल समस्या को Q/C के टुल्स का प्रयोग कर समस्याएँ समाप्त हो जाती हैं।
- क्वालिटी सर्कल कर्मचारी की छुपी हुई प्रतिभा को निखारने का प्लेटफॉर्म प्रदान करता है।

उपसंहार :-

Quality Circle आज हर देश के लोग अपना रहे हैं क्योंकि Quality Circle के द्वारा हम औद्योगिक घर एवं समाज की समस्याओं को समाप्त कर राष्ट्र निर्माण में योगदान दे सके जिससे हमारा देश प्रगतिशील हो।
